All Bills listed are currently in the House, Health, Welfare & Institution Committee that meets Tuesdays and Thursdays. Please contact each and elaborate on these talking points to help convey your message to your audience or [click here for detailed talking points on HB5016](#). Remember to be kind and courteous - it is never a good idea to make an adversary out of a representative.

NOTES FOR REPUBLICAN COMMITTEE MEMBER CONTACT: Keep in mind that the following Republican committee members supported medical freedom with a no vote on HB1090. Consider starting your call or email thanking them for their vote for medical freedom earlier this year. Then, select from our talking points to make your stance clear on why you want them to support this bill.

- Freedom of Religion.

- 
- Medical products are not one size fits all.
 - Where there is risk and undetermined long term side effects there must be choice.
 - Doctors across the Nation have spoken out about the benefits and success of therapeutics. Each person should be able to assess personal risks, benefits and make an informed decision with their personal doctor.

NOTE FOR DEMOCRAT COMMITTEE MEMBER CONTACT: Keep in mind that the following Democrat committee members did not support medical freedom and casted a yes vote on HB1090. Consider starting your call or email stating this is not a republican or democrat issue. It is not a pro-vaccine or anti-vaccine issue. It is a civil liberties issue and a matter of my body, my choice. Then, select from our talking points to make your stance clear on why you want them to support this bill. Here are the best talking for Democrats:

- Bodily Autonomy or Sovereignty.
- Holding people personally accountable to take a mandated medical product with no exemptions opens the State to liability, and the manufacturers have none.
- Doctors across the Nation have spoken out about the benefits and success of therapeutics. Each person should be able to assess personal risks, benefits and make an informed decision with their personal doctor.
- Informed consent is a vital part of a high functioning society. The most crucial element of informed consent is the ability to decline or accept.
